PROFESSIONAL SUMMARY

Detail-Oriented Full-Stack Developer with expertise in designing and implementing scalable, responsive applications using React, Node.js, Express, and MongoDB. Skilled in both frontend and backend development, with a proven ability to write maintainable code, optimize performance, and ensure accessibility while adhering to industry best practices.

EDUCATION

Masai School -Software Development 12/2024 – Present | Bengaluru

National Institute of Medical Sciences University, 08/2019 – 05/2023 | Jaipur, Rajasthan
Bachelor of Technology - Biotechnology

SKILLS

Frontend — HTML5, CSS3, JavaScript (ES6+), React, Redux, TailwindCSS, Bootstrap, **Backend** — Node.js, Express.js, MongoDB, Firebase, **Other** — Postman, Chrome DevTools, GitHub, JSON, Netlify, Vercel, **Soft Skills** — Problem-solving, Critical thinking, Time management, Communication

PROJECTS

Loanify – Loan Application, Frontend - Application

GIT 🔗 | LIVE DEMO 🔗

Technologies: HTML, CSS, JavaScript, Bootstrap, Firebase, SweetAlert

- Developed a responsive loan application platform with authentication, loan calculations, and loan limits.
- Implemented Firebase for user authentication and real-time data management.
- Enhanced user experience with SweetAlert notifications and Bootstrap components.

Sociomom – Social Media Scheduler & Task Manager, Frontend - Application

GIT 🔗 | LIVE DEMO 🔗

Technologies: React, Redux, Firebase, Cloudinary, TailwindCSS

- Built a social content scheduling app with task management, post previews, and collaboration features.
- Integrated Firebase for backend storage and authentication; Cloudinary for image uploads.
- Added engagement analytics, personal profile customization, and custom fonts.
- Implemented animations and interactive starry background for an engaging UI experience.

Bookworm – Library Management System, Full-Stack Application

GIT 🔗 | LIVE DEMO 🔗

Technologies: MongoDB, Node.js, Express.js, React, TailwindCSS, Cloudinary, NodeMailer

- Developed a full-stack library management platform with admin and member roles.
- Implemented book addition, borrowing/returning functionality, fine calculation, and dynamic analytics.
- Integrated Cloudinary for book cover image storage and display.
- Added forgot password functionality and live email notifications using NodeMailer.
- Built a real-time dashboard to track book stats, user activity, and library analytics.
